Visit to Cathay Pacific Cargo Terminal

ABA in Global Logistics and Supply Chain Management

On March 16, 2016, students from ABA in Global Logistics and Supply Chain Management (GLSCM) visited Cathay Pacific Cargo Terminal at HK International Airport. The visit included a guided tour led by their Operation Manager with explanation adapted to the team about the air cargo terminal facilities operations and working flows.

At the end, there was an experience sharing with participants. It helped our students consolidating their observations and integrating with their knowledge learnt in class.
